

ABOUT HORECAHOST

*The Engine Behind
World-Class Hospitality*

25
Years of
Experience

60+
Global
Brands

One
Standard of
Excellence

**WE DON'T JUST
SUPPLY KITCHENS.
WE BUILD
BUSINESSES.**

For over 25 years, HorecaHost has been the silent partner behind successful hotels, bustling restaurants, and high-volume cafés. We understand that in the hospitality industry, equipment isn't just hardware—it's your livelihood. It's the difference between a smooth service and a chaotic Saturday night.

**We aren't just a catalog of machinery;
we are a legacy of reliability in the HORECA sector.**

WHY CHOOSE HORECAHOST

THE FACTORY-TO-CUSTOMER ADVANTAGE

Why pay for markups when you can pay for quality? We operate on a direct factory-to-customer model. By cutting out unnecessary middlemen, we deliver premium commercial equipment directly to your doorstep—complete with manufacturer warranties.

Better Value: Your budget goes into the machine, not the supply chain.

Direct Accountability: You get authentic products with clear support channels.

A CURATOR OF GLOBAL EXCELLENCE

Quantity means nothing without quality. We have spent two decades vetting the market to curate a portfolio of over 60 unmatched global brands. Whether you need precision Italian espresso machines or heavy-duty German refrigeration, we source the gold standard of what the world has to offer.

ABOUT HORECA HOST CONSULTING

At HORECA HOST Consulting, we take pride in delivering maximum value and return on investment for every dollar spent. With experience working across a wide range of projects — including clients with strict budget requirements — we understand the importance of maintaining cost-effective solutions without compromising on quality, performance, or project deliverables.

We provide comprehensive consulting services tailored to the hospitality and foodservice industry. Our expertise includes developing effective systems and processes to help businesses attract, engage, and develop a strong workforce.

Our dedicated research team uses proven methodologies to collect, analyze, and interpret data, delivering insightful reports that support operational growth and business success.

KITCHEN CONSULTING SERVICES

Our Kitchen Consultants bridge the gap between culinary vision and practical execution by designing highly functional, safe, and efficient kitchen spaces. Depending on the project requirements, our services cover both residential kitchen design and commercial foodservice facility planning for restaurants, hotels, cafés, and catering operations.

If you are planning to open or renovate a restaurant, contact us for a professional consultation. Our experts provide you with innovative concepts, technical drawings, and highly professional solutions tailored to your business needs.

WHY CHOOSE HORECA HOST

Unique and innovative design approach

Strong technical expertise and industry knowledge

Professional kitchen planning and layout solutions

Guidance in selecting the right kitchen equipment for maximum productivity

Cost-saving solutions without compromising quality

End-to-end support for hospitality and restaurant projects

Our expertise team ensures that every kitchen is designed with efficiency, productivity, safety, and long-term operational success while helping clients optimize investment and reduce unnecessary costs.

BORDERS ARE NOT BARRIERS

Great hospitality is universal, and so is HorecaHost. With robust international shipping capabilities, we support clients across the globe. Whether you are opening a boutique resort in the Maldives or a commercial bakery in Dubai, our logistics team ensures your project stays on track.
